## About This Game

You are Kayto Shields, an ordinary man thrown into an extraordinary adventure. It was only his first day as the vice president of the Sunrider Academy student council when the unreasonable class president appointed him to be the school club manager.

“These clubs cause nothing but trouble,” she said. “I’m appointing you to take charge and fix them up by the end of the year!”

Add to that another completely unreasonable bet with his little sister that he’ll get a girlfriend by the end of the year, and Kayto’s school life already seems hectic! But that’s not even the worst of it! Kayto soon learns that the captains of each of the clubs he’s supposed to manage have serious issues of their own. Surrounded by girls lacking any common sense, his wacky days at Sunrider Academy begin!

You will take control of Kayto as he carefully manages both his student life, and his responsibilities as club manager.

Study hard, bring glory to Sunrider Academy, and get a girlfriend!

Piece of cake, right?

Got this game on a recommendation. Its a stat management game with some date sim elements but those kinda get thrown out part way through. I didn't find any character particularly interesting and half of the routes felt incomplete. I had not played a stat manager before but this didn't impress me much.
